Instructions for TestFlight app:

Open the provided link on your iOS device.

You will be redirected to the TestFlight app.

- • If TestFlight is not installed, you'll be prompted to download it from the App Store.

Once TestFlight opens, you will see the app's page.

Tap **“Accept”** or **“Install”** to download the beta version of the app.

After installation, open the app and reproduce the issue.

Once the issue occurs, **shake your device** to generate the log file.

Share the generated log file with us for further investigation.
